SUMMARY

I am a results-driven Software Developer with over three years of experience specializing in Java, Spring Boot, ExtJS. My expertise lies in developing REST APIs, debugging, and optimizing software performance within agile environments. I thrive in collaborative settings, where I work effectively with cross-functional teams to deliver efficient and scalable software solutions

EDUCATION

BE, Computer Engineering

PCET's Nutan Maharashtra Institute of Engineering and Technology, Pune

📅 08/2017 - 06/2021 📍 Pune, India

EXPERIENCE

Software Developer

Winsoft Technology 📅 01/2021 - Present 📍 Pune

A technology company specializing in software solutions

- Developed and maintained RESTful APIs, improving system performance by 40%
- Reduced software bugs by 25% through efficient debugging strategies
- Led a team in building scalable web applications using ExtJS and Spring Boot
- Collaborated with stakeholders to analyze business requirements and design solutions

SKILLS

Java	MVC	REST	Spring Boot	Spring MVC
SQL	Angular	Agile		

KEY ACHIEVEMENTS

Ahead-of-Schedule Launch with Recognized UI – PMJJBY & PMSBY

Successfully delivered the PMJJBY & PMSBY project ahead of schedule, contributing to a seamless go-live. Received recognition for delivering an intuitive and user-friendly UI that enhanced the overall user experience and set a benchmark for future interfaces.

PROJECTS

Customer Benefits Analysis

📅 01/2022 - Present

A banking application project aimed at improving user experience and trust

- Developed a banking application for transparent current account management
- Designed a feature to auto-reverse erroneous debits, improving user trust

Atal Pension Yojana

📅 02/2024 - Present

A project focused on managing pension benefits for workers

- Managed a pension scheme for unorganized sector workers
